

THE **LIGHTEST SYSTEM**  
WITH GOLD STANDARD FEATURES  
AND UNIQUE **ADVANCED TECHNOLOGIES**  
FOR **UNLIMITED ECLS CLINICAL**  
**APPLICATIONS**

With a **weight of less than 9 Kg** and equipped with a **magnetic levitation centrifugal pump**, Colibrì is Eurosets brand new ECLS system designed with transport in mind. Thanks to its lightweight and minimized footprint, as well as advanced monitoring capabilities, **Colibrì improves ECLS management in any clinical application**. Featuring full integration with ECMOLife and a series of unique accessories that facilitate intra and extra hospital transport, **Colibrì represents the next generation in the ECLS space**.
